

# ORCHESTRE BY OLIVIER VADROT

## AIX-EN-PROVENCE, FRANCE

Seats, sculptures or letters of the alphabet — take your pick. Orchestre is a set of 26 pieces resembling the Latin alphabet, placed on the grounds of the University of Literature and Human Sciences in Aix-en-Provence. Inspired by the history of writing, the lava stone and marble seats encourage interactions through their shapes, and reference antique amphitheatres through their arrangement. The installations encourage exchanges between people; the O becomes a small gathering space, E acts as a bench and U becomes a double stool for personal conversations.
